

mStab1-1.26, InVivoPure+

Endotoxin level ≤ 1 EU/mg

Description:

mStab1-1.26, InVivoPure+ is a mouse monoclonal antibody against **mouse Stabilin-1** (UniProt entry: [Q8R4Y4](#)), also known as **Clever-1** or **FEEL-1**. Stabilin-1 is a scavenger receptor expressed by sinusoidal endothelial cells (ECs) in the liver, lymph nodes, spleen, and bone marrow [1]. Stabilin-1 is expressed in human breast cancer and supports tumor growth [2]. It is found on subset of macrophages that mediate tissue homeostasis and is involved in liver fibrosis [3]. **mStab1-1.26** or **mStabilin-1 (clone 1.26)** is first mentioned by Schledzewski et al. (2006) [4]. To generate the antibody, a recombinant mouse stabilin-1 fragment (residues 1–710 of Q8R4Y4) fused to mouse IgG2b-Fc was purified from stably-transfected HEK293 cells and used to immunize stabilin-1 knockout mice. mStab1-1.26 recognizes stabilin-1 in rat and mouse.

The antibody is produced exclusively under serum-free conditions from hybridoma and purified through one-step purification with Protein-G affinity chromatography.

Product-ID:	AK726PP
Immunogen:	Recombinant mouse Stabilin-1 fragment from HEK 293 (residues 1–710 of Q8R4Y4, fused to mouse-IgG2b-Fc)
Host:	Mouse
Clonality:	Monoclonal
Isotype:	Mouse IgG1 κ
Formulation:	Liquid, PBS, pH 7.4, 0.2 μ m sterile filtered
Concentration:	≥ 1.00 mg/ mL
Purity:	$\geq 90\%$ (CGE, reducing conditions)
Endotoxin:	≤ 1 EU/ mg (LAL test)
Recommended Isotype Control:	Mouse IgG1- Antibody (AK3421)

The product is for research use or for further manufacturing only.
